**INTERPRETATIONS & APPLICATIONS  
OF BUILDING CODES & REGULATIONS #97-1**

**CODE SECTION :                   UPC 410**

**07/22/97 rev 9/16/03**

**SUBJECT : OUTDOOR SHOWER DRAINS**

Outdoor showers shall be installed with a receptor that is connected to the sanitary sewer system.

The receptor must have curbs or be otherwise constructed to prevent water from running into it. Rain water from roofs may not drain into the receptor. It is acceptable to allow rain to fall directly from the sky into the receptor.

At single-family residences outdoor showers may be installed with a receptor that drains to a landscape area.
